Course Outline:

Explore the relaxing world of tangling. The process of art tangling is in part skill building; learning the pen strokes and different patterns, how to shade the tangle effectively, how to design your own pattern. It is also equally about the process, the slowing down and deliberation of each stroke on the page, it really is a form of meditation. The beauty of this art form is that no drawing experience is needed to be successful, just patience and a willingness to let go.

Course Materials: An additional materials fee of \$15 is payable to the instructor on the first day of class for all required materials
