Course Outline:

Explore the exciting world of stenciling and discover for yourself why this time-honoured technique is taking the do-it-yourself market by storm. Have you wanted to create your own home number plaque, an inspiring wall saying on canvas or add a monogram to a piece of furniture? Let decorative artisan Michael Wiens walk you through each step. Through the use of laser-cut mylar stencils, students will create their own sample projects using custom botanical and monogram stencils. At the end of this workshop students will be provided with a sample pack of stencils for practice at home.

Course Materials:

All practice materials are included in the cost of the workshops.

See next page for samples of how the technique can be used
