This second level course is designed for returning experienced older students who have done one or more clay courses in the past. Students who have a successful foundation in the basic principles of working with clay as a medium will enjoy new more complex functional and sculptural projects as they advance their skills in clay building. This is a great stepping stone to Hand-building and Wheel-throwing For Teens.

Course Materials:

The cost of the class includes all required materials: clay, glaze, firing and shared use of tools.
