

A53 –Summer Fun and Functional Pottery

Instructor: Barbara Taylor

Thursdays July 4 – Aug 22

8 classes • 7 - 10 pm

Please Note:

- Refund requests must be made in writing to Creative Programs Coordinator **at least a week** before the first class.
- Due to limited space, all artwork must be taken home at the end of each class.
- Pottery is the exception – pieces in process can be stored for the duration of the course but must be picked up 2 weeks after the final class.

Course Outline:

Calling all potters! Explore the many ways to create functional pieces for your home and garden using handbuilding and the wheel this summer. All levels welcome as each student will develop their own pieces with individual guidance and demos from the instructor on form, surface, finishing and glazing. Let's get creative!

Course Materials:

The cost of the class includes a single 10 kg bag of clay and the associated glaze, firing and tech time. (Additional bags of clay with the associated glaze, firing and tech time can be purchased for \$30 during the class if required.)

Please label your own tools. Bring towel and an old apron or shirt, soft sponge, notebook, pencil, ruler and wear close-toed shoes.

See important details page 2

Pottery Studio Procedures:

Any class work left more than three weeks after the course has ended will be recycled, but we encourage all students to have work finished and picked up.

Please note that due to the many users of the studio; students can expect it to take a couple of weeks to get pieces bisque fired (especially if pieces are oversized - MAXIMUM SIZE for pieces is approximately 20" x 20").

The Pottery studio is a shared space and all students are required to follow these guidelines;

- Mop around any areas you are working during and after the class (mop and bucket are by the emergency exit in the Pottery studio)
- Wipe down all work spaces at end of class
- Put away all tools
- Turn off and unplug all equipment at the end of class
- Store your work on the assigned shelves
